Report

International Webinar on Rudiments of Database Management Systems” was conducted by Abacus club, Department of Computer Applications on 04.06.2021 at 5.30 pm. Through this program, students knew the knowledge about database management systems.

The database management systems are highly essential for organizations in managing different databases and retrieving relevant information. This management system is used in various organizations as an interface that helps users in forming a connection with the databases. Additionally, it helps in organizing data in a way that it can be accessed easily.

Our resource person Mrs.Meena Sankaram taught about Introduction about Database and various methods in DBMS. She explained about importance of DBMS and Advantages , disadvantages of DBMS.

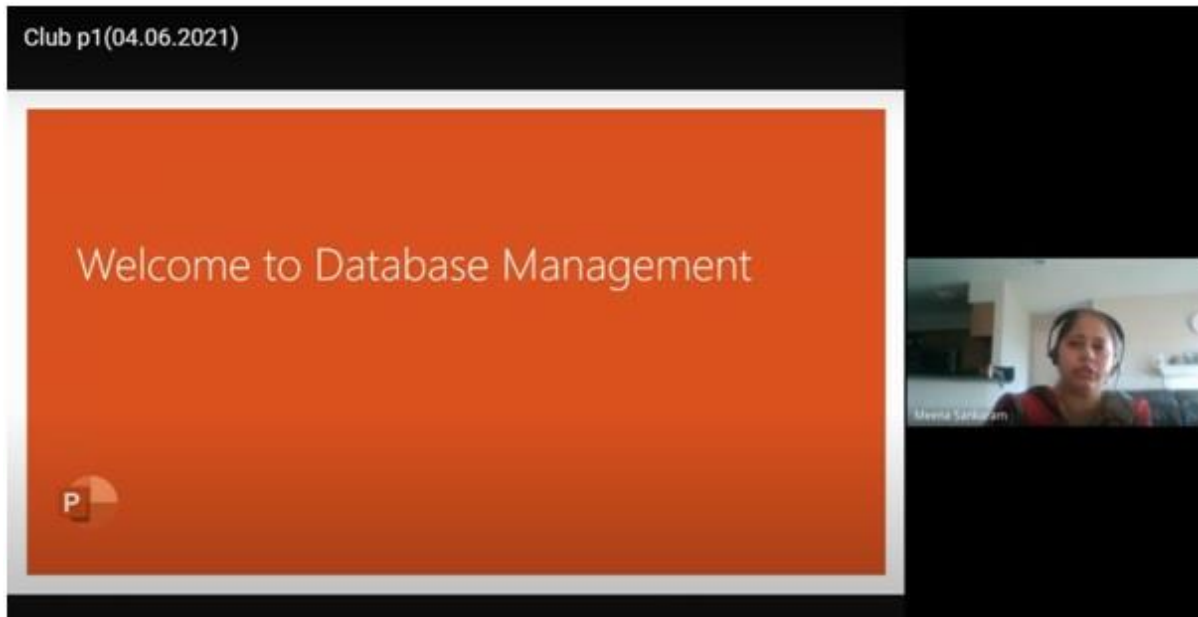

INVITATION

The invitation poster features a colorful, multi-colored border. At the top left is the logo of Cauvery College For Women (Autonomous). The text reads: "Cauvery College For Women(Autonomous)", "Nationally Accredited (III cycle) with 'A' Grade By NAAC", "ISO 9001:2015 Certified", and "Annamalai Nagar, Trichy, TamilNadu, India". Below this is the "DEPARTMENT OF COMPUTER APPLICATIONS" and "ABACUS CLUB" which "Organizes" the "International Webinar on Rudiments Of Database Management System". The resource person is "Meena Sankaram", a "Database Consultant, St.louis, Missouri, United States of America." A small circular icon of a laptop with a microphone is next to her name. To the right is a photo of Meena Sankaram. At the bottom, it says "You're Invited" in a colorful font, followed by "Date : 04.06.2021" and "Time: 5.30pm-6.30pm(IST)". Instances and Schemas

Similar to types and variables in programming languages

Schema – the logical structure of the database

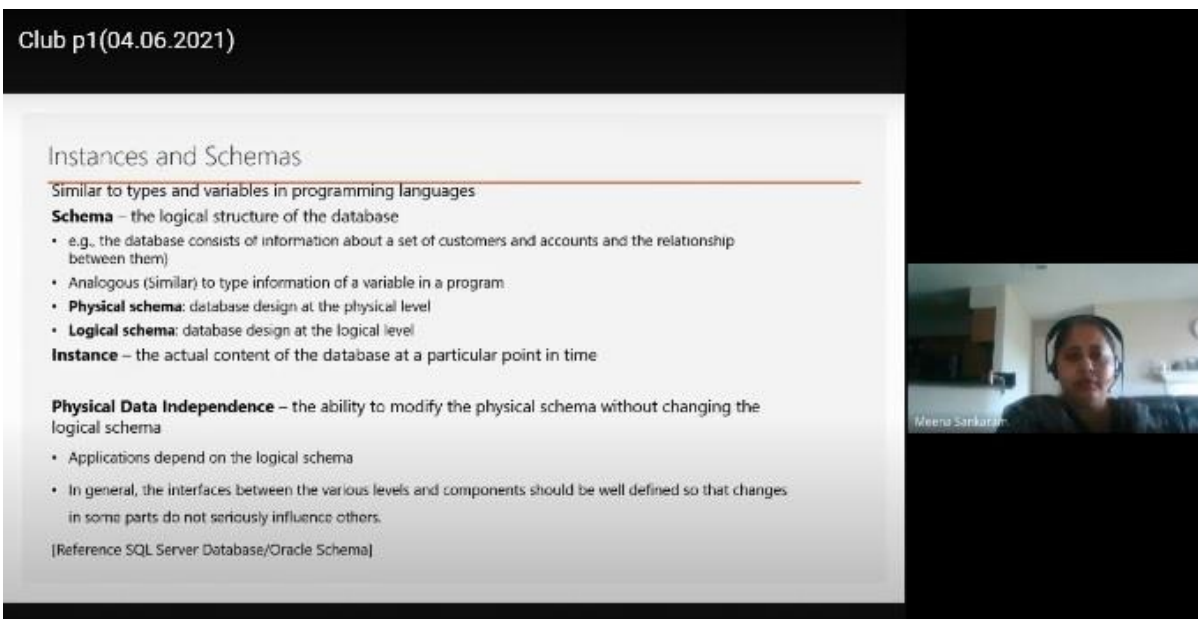

- e.g., the database consists of information about a set of customers and accounts and the relationship between them)
- Analogous (Similar) to type information of a variable in a program.
- **Physical schema:** database design at the physical level
- **Logical schema:** database design at the logical level

Instance – the actual content of the database at a particular point in time

Physical Data Independence – the ability to modify the physical schema without changing the logical schema

- Applications depend on the logical schema
- In general, the interfaces between the various levels and components should be well defined so that changes in some parts do not seriously influence others.

Report

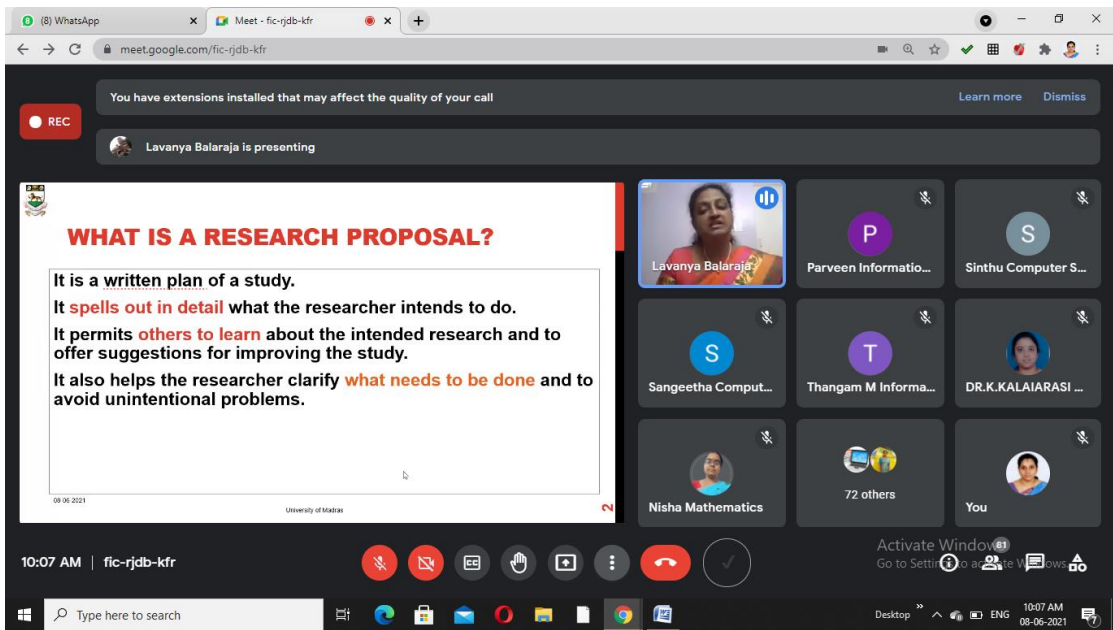

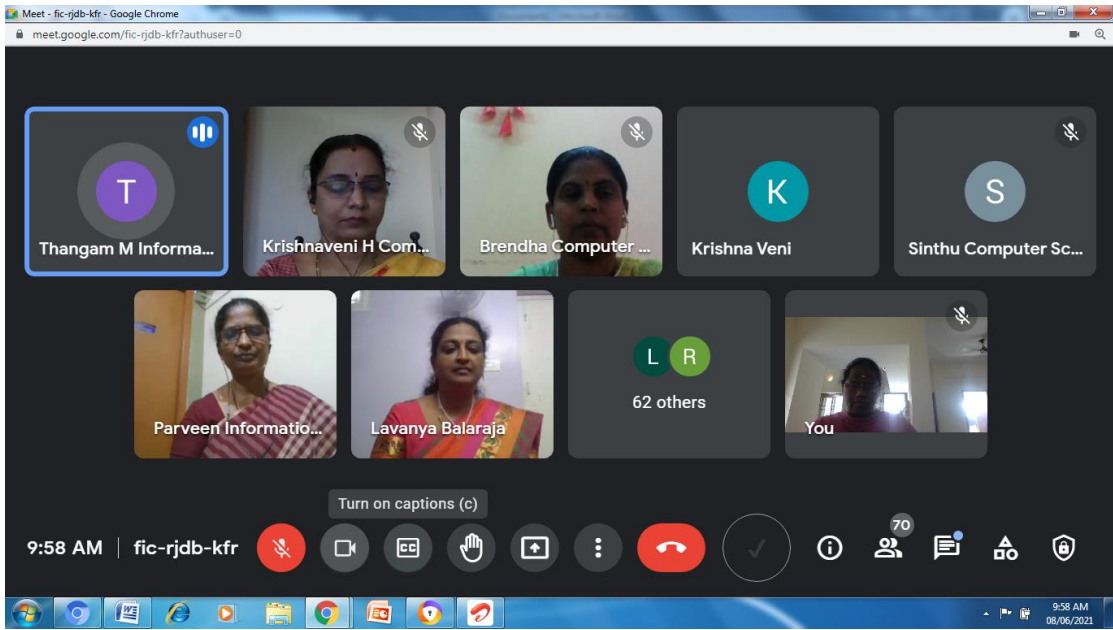

The quality of the institution is improved by providing the research work to the societal implementation. The next step to growth of the institution is to cater the needs formulated by UGC.

In order to attain these goals the Departments of Computer Science, Computer Applications and Information Technology collaborated with Internal Quality Assurance Cell (IQAC) of Cauvery College for Women, (Autonomous) by organized two Faculty Development Programme on 8/6/2021.

The first program “Funded research Proposal Writing” was conducted between 10.00 AM to 11.30 AM. The resource person Dr.B.Lavanya Associate Professor in the Department of Computer Science, University of Madras has given a brief idea on what is a Research proposal. She has also listed the components and key elements needed for research proposal. The resource person has stated the significance of framing a title and abstract writing which provides a high impact while applying to the Funding Agency. This session revealed various funding agency and the norms to apply for the projects.

The second program “Tips and Best practices for writing a Scientific paper” was conducted between 02.00PM to 03.30 PM. The resource person Dr.U.Srinivasulu Reddy Assistant Professor in the Department of Computer Applications, National Institute of Technology, Trichy has given a pervasive idea on how to write a quality scientific paper. The technology transformation which should serve the societal problems is the key element for writing a quality paper. The paper should cater the emerging trends for the need of the hour. The session has specified us the steps how to prepare a scientific paper for the budding research scholars and also for the experienced.

Report

The webinar on “Know Your Rights as a Woman” was conducted by Abacus Club, Department of Computer Applications on 21.10.2021 at 02.00pm. This program aware the basic knowledge about the rights of woman.

Women's rights are the fundamental human rights that were enshrined by the United Nations for every human being on the planet nearly 70 years ago. These rights include the right to live free from violence, slavery, and discrimination; to be educated; to own property; to vote; and to earn a fair and equal wage.

As the now-famous saying goes, “women’s rights are human rights.” That is to say, women are entitled to all of these rights. Yet almost everywhere around the world, women and girls are still denied them, often simply because of their gender.

Winning rights for women is about more than giving opportunities to any individual woman or girl; it is also about changing how countries and communities work. It involves changing laws and policies, winning hearts and minds, and investing in strong women’s organizations and movements.

Global Fund for Women exists to support the tireless and courageous efforts of women’s groups who work every day to win rights for women and girls. These groups are working to ensure women can own property, vote, run for office, get paid fair wages, and live free from violence – including domestic violence, sexual assault, and harmful practices such as female genital mutilation.

Our Resource person Mrs. Thirumarai Arasi explained about the rights of woman and various laws regarding women.
