Lavanya Balaraja is presenting

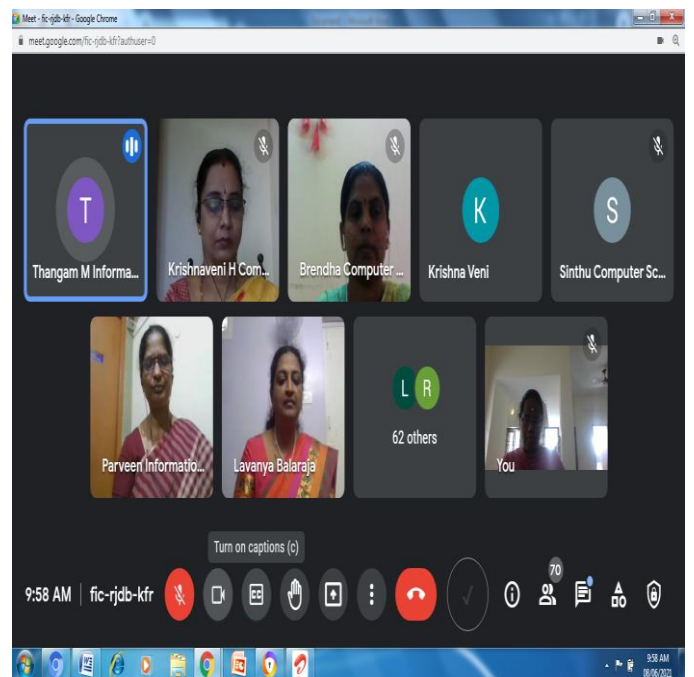

WHAT IS A RESEARCH PROPOSAL?

It is a written plan of a study.
It **spells out in detail** what the researcher intends to do.
It **permits others to learn** about the intended research and to offer suggestions for improving the study.
It also helps the researcher clarify **what needs to be done** and to avoid unintentional problems.

The quality of the institution is improved by providing the research work to the societal implementation. The next step to growth of the institution is to cater the needs formulated by UGC.

In order to attain these goals the Departments of Computer Science, Computer Applications and Information Technology collaborated with Internal Quality Assurance Cell (IQAC) of Cauvery College for Women, (Autonomous) by organized two Faculty Development Programme on 8/6/2021 with 91 participants.

The first program “Funded research Proposal Writing” was conducted between 10.00 AM to 11.30 AM. The resource person Dr.B.Lavanya Associate Professor in the Department of Computer Science, University of Madras has given a brief idea on what is a Research proposal. She has also listed the components and key elements needed for research proposal. The resource person has stated the significance of framing a title and abstract writing which provides a high impact while applying to the Funding Agency. This session revealed various funding agency and the norms to apply for the projects.

The second program “Tips and Best practices for writing a Scientific paper” was conducted between 02.00PM to 03.30 PM. The resource person Dr.U.Srinivasulu Reddy Assistant Professor in the Department of Computer Applications, National Institute of Technology, Trichy has given a pervasive idea on how to write a quality scientific paper. The technology transformation which should serve the societal problems is the key element for writing a quality paper. The paper should cater the emerging trends for the need of the hour. The session has specified us the steps how to prepare a scientific paper for the budding research scholars and also for the experienced.

Artificial Intelligence is a transformative technology that impacts every aspect of businesses globally in key business decisions. To understand why AI is becoming so popular, the impact of AI and the field of AI as a career choice, the Departments of Computer Science of Cauvery College for Women (Autonomous) organized an online webinar “**Career Perspectives In Artificial Intelligence**” on 11.08.2022 at 10:30 am

To understand why AI is becoming so popular, the impact of AI and the field of AI and data science as a career choice. This webinar has received an overwhelming response. 316 participants turned up during the session. **Dr.P.Ajitha**, Alumna. Dean-Academics-Science, KG College of Arts and Science, Coimbatore delivered a session for Faculty members, UG and PG students of Computer Science Department through Microsoft Teams.

The main objective behind organizing this webinar was to provide students an insight regarding career prospects in the domain of AI along with essential skill building. The session helped students to know about what AI is all about and after gaining the knowledge of this domain what opportunities are there in the industry. Resource person explained the roles and responsibilities associated with various job positions available in this field.
