Amity club Department of Social Work commemorating International Human Rights Day on 11.12.2023. 10 December 2023 marks the 75th anniversary of one of the world's most groundbreaking global pledges: the Universal Declaration of Human Rights (UDHR). This landmark document enshrines the inalienable rights that everyone is entitled to as a human being - regardless of race, colour, religion, sex, language, political or other opinion, national or social origin, property, birth or other status. In the decades since the adoption of the Universal Declaration of Human Rights (UDHR) in 1948, human rights have become more recognised and more guaranteed across the globe. The UDHR has since served as the foundation for an expanding system of human rights protection that today focuses also on vulnerable groups such as persons with disabilities, indigenous peoples and migrants. However, the promise of the UDHR, of dignity and equality in rights, has been under a sustained assault in recent years. As the world faces challenges new and ongoing – pandemics, conflicts, exploding inequalities, morally bankrupt global financial system, racism, climate change – the values, and rights enshrined in the UDHR provide guideposts for our collective actions that do not leave anyone behind. . In this regard We planned to commemorate this day during the prayer meeting at the auditorium. All the Under Graduate students participated in this event The programme started with the prayer song sung by our student. We explained about the purpose of celebrating international human rights day and also human rights and its significance through videos and discussions.
